

## **TRAFFIC MAINTENANCE WORKER I**

### *Class Definition*

Under close immediate supervision, performs entry level traffic safety maintenance tasks, including installation, maintenance and removal of traffic control signs and markings on City streets for effective traffic control.

### *Distinguishing Characteristics*

Traffic Maintenance Worker I is the entry level class in the Traffic Maintenance Worker series. Incumbents perform semi-skilled work in the installation and maintenance of traffic control signs and markings, which includes operating and maintaining equipment, painting and maintaining crosswalks, center lines, and traffic control legends. Positions in this class are flexibly staffed. Traffic Maintenance Worker I incumbents are expected to progress to the II level with appropriate training, experience and satisfactory performance. Traffic Maintenance Worker I is distinguished from Traffic Maintenance Worker II in that incumbents of the latter perform a wide variety of skilled traffic safety maintenance tasks.

### *Typical Tasks*

(This list is neither inclusive nor exclusive. Consequently, this information may not reflect Essential Functions for this class.)

Assists in the fabrication, assembly, installation and maintenance of traffic control signs and markings.

Installs and maintains proper signing for construction and maintenance zones.
